

## **Eco Water Softeners**

Use up to 40% less water with 17% extra capacity than a standard metered softener and even bigger savings over time based softeners.

## **ECO Water Softeners**

Reduce water usage on typical softeners by 40%.

Each cycle of the softener has been optimised to reduce water usage and these softeners meet the requirements for water efficiency as defined by the code for sustainable homes.

The **ECO softeners** are specifically designed to meet the requirements of UK homes. Increasingly water usage is an important factor when choosing which softener to purchase. ECO softeners give the same performance of conventional softeners but every detail has been designed to **save** as much water as possible.

## Water Softeners:

- Save money on energy bills (24% saving)\*
- Eliminate expensive maintenance bills
- Remove traces of scale in the shower, bath or sink scale can give 75% reduction in flow in 18 months!\*
- Give your skin a silky clean feeling
- Make your laundry feel softer and look brighter
- Reduce the high cost of soap and detergents (50% saving)\*

**Compact**, fitting under modern sinks, specially designed to fit even the smallest gaps and still have a high capacity.

**Stylish**, fitting equally well into any utility room or kitchen

Advanced, efficient and quiet

**Designed** to be simple to use

Versatile, 2 models for any size household

Model (Metered)	10 Litre	15 Litre
Size (w x h x d)	275 x 530 x 460 mm	275 x 665 x 460 mm
Water between regenerations at 300ppm hardness	1900 litres	2900 litres
Water used in regeneration	Average approx. 10I/day**	Average approx. 10I/day**
Household	1-3 people	Hard 4+, very hard 1-3 people
Average flow	800 l/hr	1200 l/hr
Maximum Flow	2500 l/hr	2500l/hr
Connections	Inlet/outlet/drain ¾", overflow ½"	Inlet/outlet/drain ¾", overflow ½"
