Features & Information

- The economic PED compliant DWI approved SPECTRUM single round stainless steel filter housing offers quick and simple cartridge change-outs with a single top nut releasing the housing
- Accepts DOE cartridges with radial flow and secures with a tie rod through the centre of the head, tightened by the head nut
- The 1/8" drain at the base of the sump allows for all liquids to be easily drained, with minimal ground clearance required for cartridge change-outs
- Buna-N seal as standard
